When someone first starts woodworking they get the impression that they need every clamp available, and we all know how expensive that can be. This book shows you how to clamp

your projects with a minimum of clamps, while also demonstrating how to use other items to create successful glue ups and clamping. Also serves as a good refresher.0 of 0 people found the following review helpful. Many good tips for using glue effectively.By Beverly CoateVery necessary information about getting the most from using glue. Some of these ideas are things we will all say, well, Duh! I should have known that when we see how simple it is.0 of 0 people found the following review helpful. Satisfactory overallBy Olcay MisirliogluI was expecting more data, tips and tricks about gluing, since I bought it for gluing.
